

CSWC Operational Period Summary

0600 July 12 2014 to 1800 July 12 2014

Cal OES Headquarters

SITUATION SUMMARY

Bully Incident, Vegetation Fire, Shasta County (Update)

Fire Information

Old Bully Choop Road, Community of Igo, Shasta County

Per CALFIRE, Cal OES Duty Officers, and ICS-209 as of 07/12/14 at 1740 hours:

- SRA
- 2,930 acres, 10% contained
- Structures Threatened: 15 single residences, 50 other minor structures
- Structures Damaged: 1 single residence; Structures Destroyed: 6 single residences
- Continued threat to structures, residents, and incident personnel due to the hot, dry weather, dry receptive fuels, and difficult topography that limits access
- CAL FIRE IMT 6 assumed command as of 1800 hours today
- Total Personnel: 1056

Emergency Management

Evacuations/Shelters:

- Mandatory Evacuations from Bland/Patina to Bland/Roaring Creek, and west to Graves Ranch
- Cal OES Law Duty Officer advised per Shasta County Sheriff's Office, 4 homes were evacuated
- An American Red Cross evacuation center has been opened at Grant School located at 8835 Swasey Drive in Redding; current population: 0

Road Closures:

- Hard road closure from Platina Road to Rainbow Lake Road, and Platina Road and Hwy 36

EOC Activations:

- Shasta County EOC activated at Level 1, Duty Officer Status.
- Inland REOC and SOC activated at Level 1, Duty Officer Status, in support of Shasta County EOC.

Deployments:

- A Cal OES Assistant Fire Chief has been assigned to the Bully Incident as an Agency Representative.
- Two Public Safety Communications Radio Technicians have been assigned to the fire.

SITUATION SUMMARY

Nicolls, Vegetation Fire, Kern County (Update)

Fire Information:

Scodie Mountains – Kiavah Wilderness, Lake Isabella, Kern County

Per CALFIRE, Cal OES Fire Duty Officer, and ICS-209 as of 07/12/14 at 1750 hours:

- FRA
- 1178 acres, 5% contained
- No structure threat at this time.
- CAL FIRE Air Resources assigned.
- Central Sierra Interagency IMT (IC Cooper) has been assigned. In brief and transition scheduled for 0900 hr. 7/12/14.
- Steep rocky terrain, very limited access and high winds continue to hamper suppression efforts.
- Total Personnel: 673

Marsh Fire, Vegetation Fire, Contra Costa County (Final)

Fire Information:

Off Marsh Creek Road, near Aspara Drive, east of Clayton, Contra Costa County

- SRA
- 120 acres, 100% contained
- No structure threat.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA:

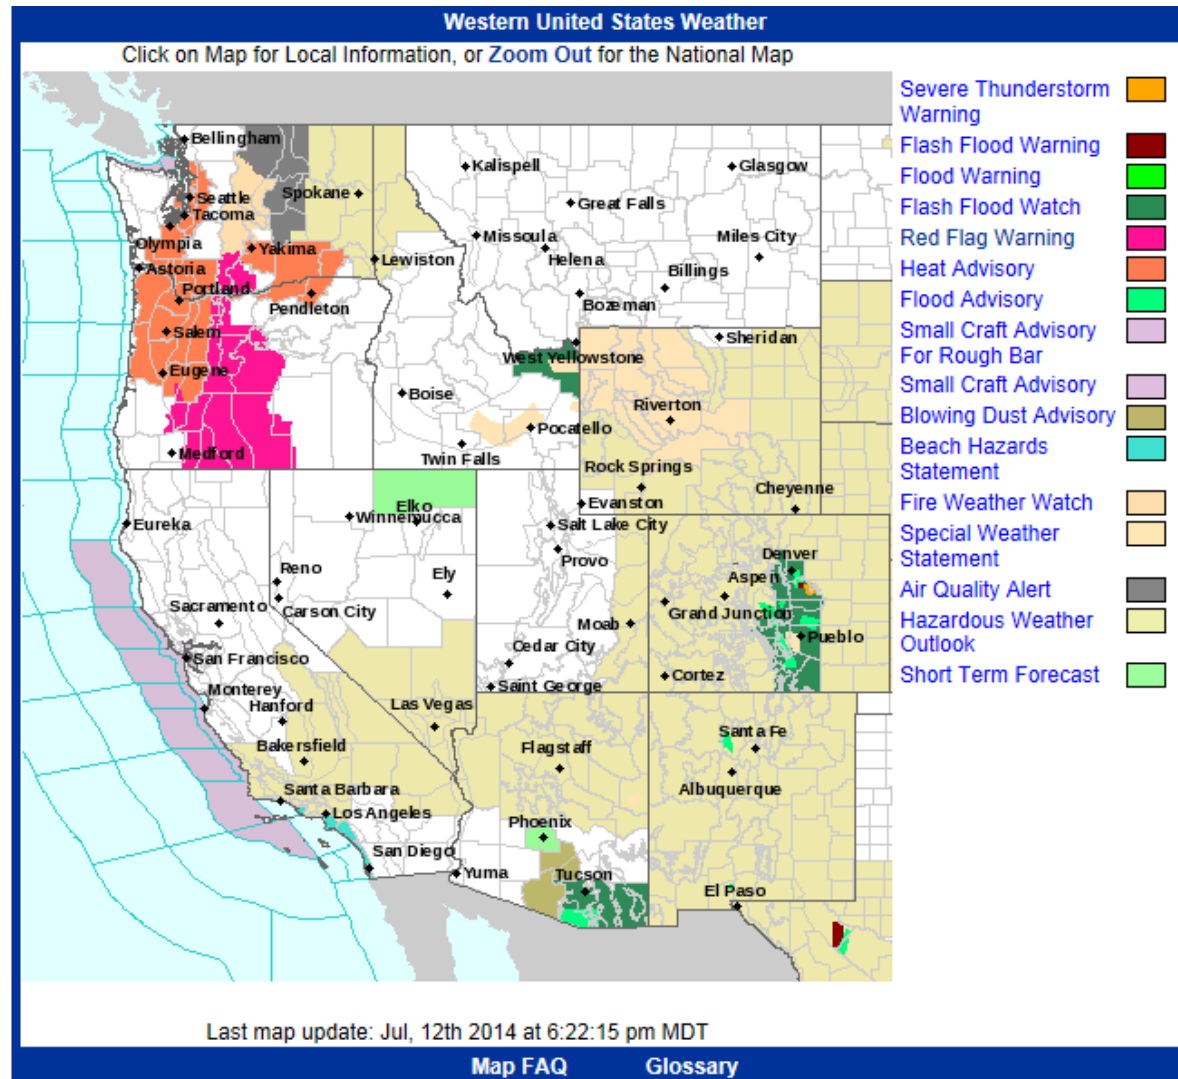

High pressure will build into Central California from the Great Basin today, and over the Northern Operations area Sunday and Monday. A warming and drying trend will take place during this time. A small offshore low pressure area will track northeastward, reaching Western Oregon by midday Sunday. This will cause a period of moderate south-southwest winds in far Northern California on Sunday, in areas that will be hot and dry after receiving lightning on Friday. Late on Monday the high pressure will begin to break down and allow a surge of moist unstable monsoon air to approach from the southeast. Afternoon buildups are likely with this pattern, and there is a slight chance of thunderstorms in the southeast portion of Northern Operations. By Tuesday, thunderstorms are possible over the higher terrain of a large portion of the region, with the main focus on the Northern Sierra. These storms will initially be a mixture of wet and dry, but produce more rainfall as they become more numerous on Wednesday. Isolated thunderstorms may continue in eastern areas Thursday, but the trend will be for drier and cooler conditions with increasing southwest winds as a strong low pressure trough drops down from the Pacific Northwest.

SOUTHERN CALIFORNIA:

Strong high pressure will develop over the Great Basin today bringing a warming trend to the region through Sunday. Maximum temperatures will be in the upper 70s and 80s across the mountains, with 90s in the valleys today. Most valley locations will be near or exceed the 100 degree mark on Sunday. Minimum humidity will be mainly in the teens away from the coast this weekend. Moisture will start to increase in the mid-levels of the atmosphere Sunday which will bring isolated afternoon thunderstorms to the mountains and deserts of Southern California east of the Cajon Pass. Moisture will continue to increase early next week which will cause showers and thunderstorms to become more numerous over the mountains and deserts. It is possible that an isolated shower or thunderstorm could move all the way to the coast across Southern California Monday and Central California Tuesday. Moisture will decrease Wednesday through the end of next week causing thunderstorm activity to lessen and become confined to the mountains and deserts. Temperatures will slowly cool Monday through the end of next week as the strong high over the Great Basin weakens and moves eastward. Winds will be light across the region through the end of next week, except there will be strong and erratic winds in and near any thunderstorms.

CAL OES ACTIVATIONS

Cal EOC Incident – 2014 Drought

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily.
- The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed.
- The Southern REOC is activated at Level 1.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is Monday – Friday, 0800-1700 hours.

Situational Summary

On January 17, 2014 Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for drought conditions. The State Operation Center (SOC) is activated to implement objectives in support of the Governor's priorities. The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State over the next few months. Negative economic impacts will also result.

The drought could result in severe impacts to the municipal water supplies, wells, agriculture (plants and livestock) and firefighting capabilities for several months. The SOC continues to be activated to monitor the situation statewide, and support regional and local operational areas.

- On 7/8/14 the State Water Board will publicly release proposed water conservation requirements to reduce water waste across the state. These proposed emergency regulations include mandatory restrictions on water use, and will be considered by the Water Board on 7/15/14.
- California Department of Fish and Wildlife staff evacuated trout from a major hatchery on the American River last week to avoid a massive die-off of fish due to increased water temperatures in the hatchery. Over two million fish are being relocated and released earlier than normal due to drought conditions.
- The Taskforce continues to meet regularly to take actions that conserve water and coordinate state response to the drought.
- Cal OES continues to gather drought-related costs from state agencies and local governments.

Situational Summary

Open Burn Ban in effect across the state: Open burning is now prohibited on 31 million acres of land across the state, due to a burn ban that CAL FIRE has directed each of its unit chiefs to implement. This ban on open burning in state responsibility areas (outside of cities and towns) reduces wildfire danger amidst extremely dry conditions.

The National Weather Service provided the following synopsis for the relationship of Blowing Dust Advisories and the drought conditions in southeast California: Dust storms are common due to increased thunderstorm activity and the winds produced with these storms, during monsoonal flows. The severity of the dust storms could be locally exacerbated by drought conditions. In any event, the public should monitor NWS for any advisories and warnings issued by NWS.

On July 1 2014, administration of the CDPH Drinking Water Program (DWP) transferred to the California State Water Resources Control Board (SWRCB) Division of Drinking Water. CDPH and the SWRCB entered a Memorandum of Understanding outlining a three-month transition period during which drought response activities and any other emergencies will be coordinated jointly between the two organizations.

CAL OES MISSIONS

Ongoing Cal OES Missions

- **2014-LAW-3978, Mission reopened.** San Bernardino Sheriff's Office requesting resources for a homicide investigation and will be conducting additional ground and mine searches beginning Sat, 7/12 at 0630 hours. Cal OES LDO is coordinating resources.
- **2014-LAW-4014,** Mendocino County Sheriff's Office is requesting a cadaver dog team for a search related to a homicide to be conducted sometime next week. Cal OES LDO is coordinating resources
- **2014-LAW-2798,** El Dorado County is planning an in-county SAR exercise on 07/15/14 for their volunteers and have requested the assistance of the California National Guard (CNG) aviation assets to support the exercise. Elements of the exercise will include an orientation to the various CNG air assets (H72, H60 and CH47), hoist training, patient packaging for air evacuation and ground team insertion and extraction training.
- **2014-LAW-2481,** The 95th CST will provide area monitoring, secure communications, and WMD expertise for the NHRA Racing Event at Sonoma Raceway July 25-27, 2014. They will assist with advanced planning and be pre-positioned prior to the start of the event.
- **2014-LAW-2483,** The 95th CST will provide area monitoring, secure communications, and WMD expertise for the IRL Racing Event at Sonoma Raceway August 22-24, 2014. They will assist with advanced planning and be pre-positioned prior to the start of the event.

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
